relay

FOR PSAP & AGENCY LEADERS

Connection beyond the console.

Created by a full-time dispatcher. Free for your team.

FOR THE PEOPLE BEHIND EMERGENCY COMMUNICATIONS

Relay is a free iPhone community for 911 dispatchers, call takers and their supervisors. It gives members a place to connect with people who understand the work.

Community & groups

Share experiences and connect in interest-based and private agency groups.

On-shift connection

Clock in when you choose and chat with other clocked-in members.

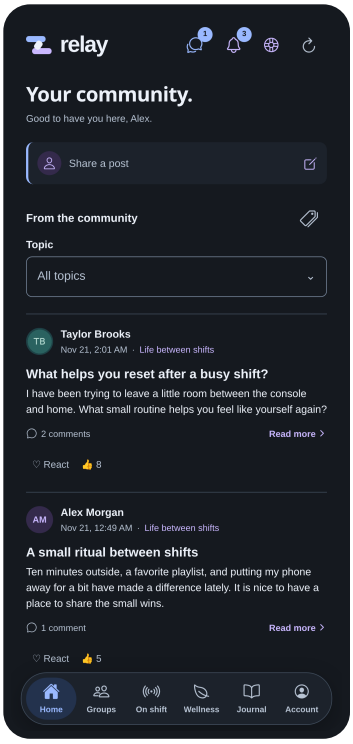
Friends & messages

Connect through profiles and friend requests, then send direct messages.

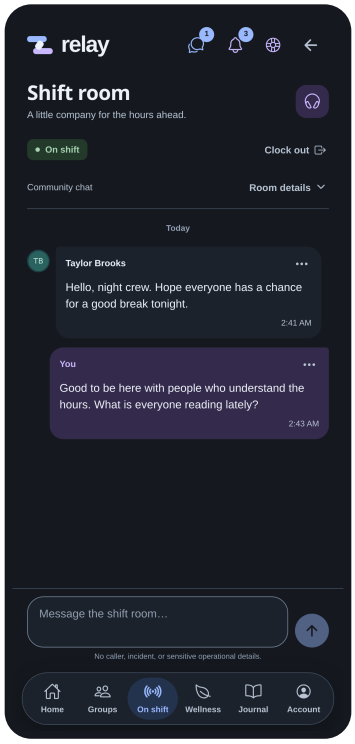
Wellness & Journal

Breathing, grounding and an account-private journal, synced across devices.

Does not replace clinical care or emergency response. Follow agency policy; never share caller or sensitive incident information.



Community



On shift

Example screens · Sample content

Member choice. Clear boundaries.

Apple sign-in and eligible work email required; work email is re-verified every six months. No location or employer monitoring. Reporting and moderation are available. Agency group roles do not open personal journals or DMs.

Share Relay with your team.
